

نبذه عن دورة Gynecology

مقدم الدورة : Dhshan Hassan Dhshan

Gynecology Gynaecology or gynecology (see spelling differences) is the medical practice dealing with the health of the female reproductive system. Almost all modern gynaecologists are also obstetricians (see obstetrics and gynaecology).What exactly does a gynecologist do? What Does a Gynecologist Do? Gynecologists give reproductive and sexual health services that include pelvic exams, Pap tests, cancer screenings, and testing and treatment for vaginal infections. They diagnose and treat reproductive system disorders such as endometriosis, infertility, ovarian cysts, and pelvic pain.When should a girl see a gynecologist? The American College of Obstetricians and Gynecologists (ACOG) recommends that girls first see a gynecologist when they're between the ages of 13 and 15.What diseases do gynecologist treat? Gynecological Problems and Conditions Cervical Dysplasia. Menstrual Disorders. Pelvic Floor Prolapse. Pelvic Pain. Polycystic Ovarian Syndrome. Uterine Fibroids. Urinary Incontinence
